---

## PROFESSIONAL SUMMARY

---

Computer Science student and part-time Junior Data Analyst with hands-on experience driving Amazon marketplace performance through data-driven decision-making. Skilled in Python, SQL, and Excel automation for sales.

## TECHNICAL SKILLS

---

**Data & Analytics :** SQL · Python · Excel (Power Query, Pivot Tables, VLOOKUP) · Statistical Analysis · Data Cleaning

**Visualization & BI:** Power BI (basic) · Tableau (basic) · Lucidchart · Figma

**Programming :** Python · SQL · JavaScript · Java · HTML/CSS · Golang · C++

**Developer Tools :** Git · GitLab · GitHub · VS Code · Cursor · IntelliJ IDEA · Antigravity IDE

## EXPERIENCE

---

### Product and Engineering

CloudSwyft Global Systems, Inc. (Internship) *June– July 2026*

- Improved product positioning clarity by researching and documenting end-to-end platform workflows (news posting, SSON installation). Translating technical operations into stakeholder ready data narratives for internal use.

### Junior Data Analyst

Angry Orange (Part-time) *Feb – May 2026*

- Increased ASIN-level campaign profitability by 80% by writing SQL queries to extract Amazon sales data, applying statistical analysis to identify underperforming listings, and launching precision-targeted ad campaigns.
- Reduced daily and monthly reporting cycle time by consolidating raw Amazon exports into an automated Excel dashboard, delivering real-time sales performance insights to stakeholders.

### Freelance Web Developer

100 Degree Café *Sept 2024 – Oct 2024*

- Grew estimated online customer engagement by 40% by designing and deploying a responsive website that improved digital visibility and gave customers direct access to menu and store information.

## ACADEMIC PROJECTS

---

### Philippine Food Price Forecasting System

Saint Louis University *May 2026*

*Project Manager*

- Built an ML pipeline forecasting Philippine food prices across 4 commodity groups using XGBoost, Optuna, and MAPIE conformal prediction — 90.9% coverage, RMSE ₱7.43, with an dashboard for 2050 climate scenarios.

### Job Networking App (TrabaguioHanap)

Saint Louis University *March 2025*

*Frontend & Backend Developer*

- Reduced job search friction for Baguio-based students by building a full-stack job platform with user flows for job searching, profile management, and application tracking — handling both frontend design and backend logic.
